- 2.8 Logistics Department
- 2.9 Operation Department

CHAPTER 3

- 3.1 Location of office

CHAPTER 4

- 4.1 Safety Programme
- 4.2 Health, Safety & Environmental Policy

MasTec is a recognized leader in the field of deep foundations, piling works, and shoring solutions, offering a wide range of services to support the structural integrity of complex construction projects. With extensive experience across different sectors, we provide tailored, innovative engineering solutions that ensure the safety and durability of each project we undertake. Our expertise spans commercial, residential, industrial, and infrastructure sectors.

MISSION

To deliver industry-leading foundation, piling, and shoring services that meet and exceed our clients' expectations through a combination of technical expertise, innovative practices, and a commitment to safety and sustainability.

VISION

To be the foremost provider of deep foundation and shoring solutions globally, fostering growth through excellence, integrity, and sustainable construction methods.

CORE VALUES

EXCELLENCE:

Continuous improvement in the quality of services and performance.

SAFETY:

Prioritizing the health and safety of our workforce, clients, and communities.

INTEGRITY:

Building trust with transparent and ethical business practices.

SUSTAINABILITY:

Embracing eco-friendly solutions that minimize the environmental impact.

COLLABORATION:

Working hand-in-hand with clients, partners, and stakeholders to deliver successful outcomes.

OUR SERVICES

1 PILING WORKS

Bored Piles: Installation of piles through drilling techniques for foundation support.

Driven Piles: Using impact or vibration to drive piles into the ground, offering a highly efficient foundation solution.

CFA (Continuous Flight Auger) Piles: A fast and efficient solution for pile installation with minimal vibration and noise.

Micro Piles: Ideal for projects with restricted access or where large piles are not feasible.

Sheet Piling: Used for retaining walls and other applications requiring temporary or permanent earth retention systems.

2 DEEP FOUNDATIONS

Diaphragm Walls: Reinforced concrete walls designed for deep excavations, providing structural support and waterproofing.

Secant Pile Walls: Intersecting concrete piles to form a continuous wall for excavation and foundation work.

Ground Anchoring: Stabilizing structures with tensioned anchors for additional lateral support in foundation and shoring works.

Grouting and Jet Grouting: Soil stabilization and reinforcement techniques used for enhancing foundation conditions.

3 SHORING WORKS

Temporary Shoring: Providing temporary structural support during excavation or construction phases, ensuring stability and safety.

Permanent Shoring: Installing permanent shoring systems to secure excavation perimeters, foundation pits, or slope stabilization.

Soldier Pile and Lagging Systems: Economical and flexible shoring solutions for deep excavations, particularly in urban areas.

Braced Excavation Systems: Steel or concrete braces that support excavation walls, commonly used in constrained spaces.

4 GEOTECHNICAL ENGINEERING & SITE INVESTIGATIONS

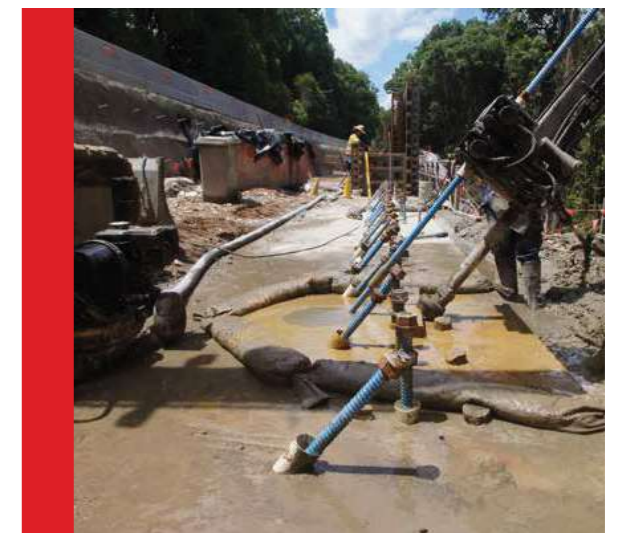

Soil Testing: Comprehensive testing and analysis of soil conditions for accurate foundation design.

Site Investigations: Detailed geological and geotechnical surveys to assess subsurface conditions and inform project planning.

Foundation Design & Consultancy: Providing expert consultancy on foundation design, tailored to meet project requirements.

Industry Expertise: We offer our services across various sectors, including:

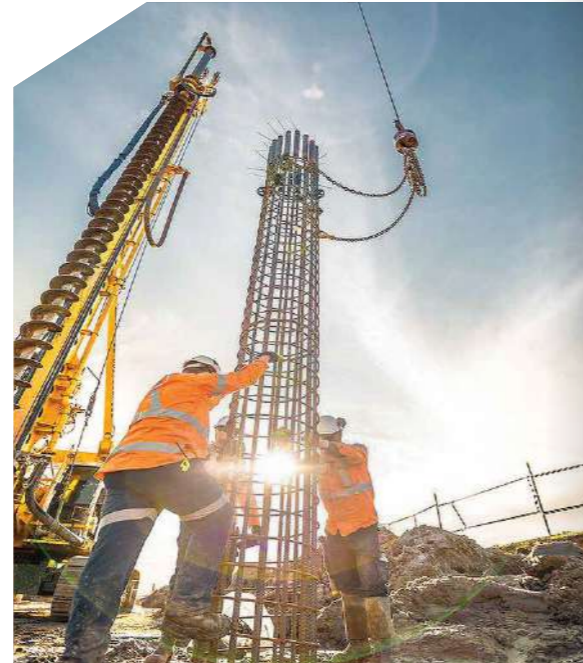

- Commercial Buildings
- Residential Developments
- Industrial Facilities
- Infrastructure Projects (Bridges, Highways, Tunnels)
- Marine Structures (Ports, Jetties)
- Power Plants and Energy Infrastructure
- Railway and Metro Projects

WHY CHOOSE US ?

01 TECHNICAL EXPERTISE

We employ a team of highly experienced engineers and technicians with deep domain knowledge in foundation and shoring systems

02 INNOVATIVE SOLUTIONS

Our approach leverages the latest technology and construction methodologies to ensure the most **efficient and effective project** delivery

03 COMMITMENT TO SAFETY

We maintain rigorous safety standards across all sites to ensure the well-being of our employees and stakeholders

04 QUALITY ASSURANCE

Stringent quality control measures are in place to ensure the highest standards are met throughout every phase of the project

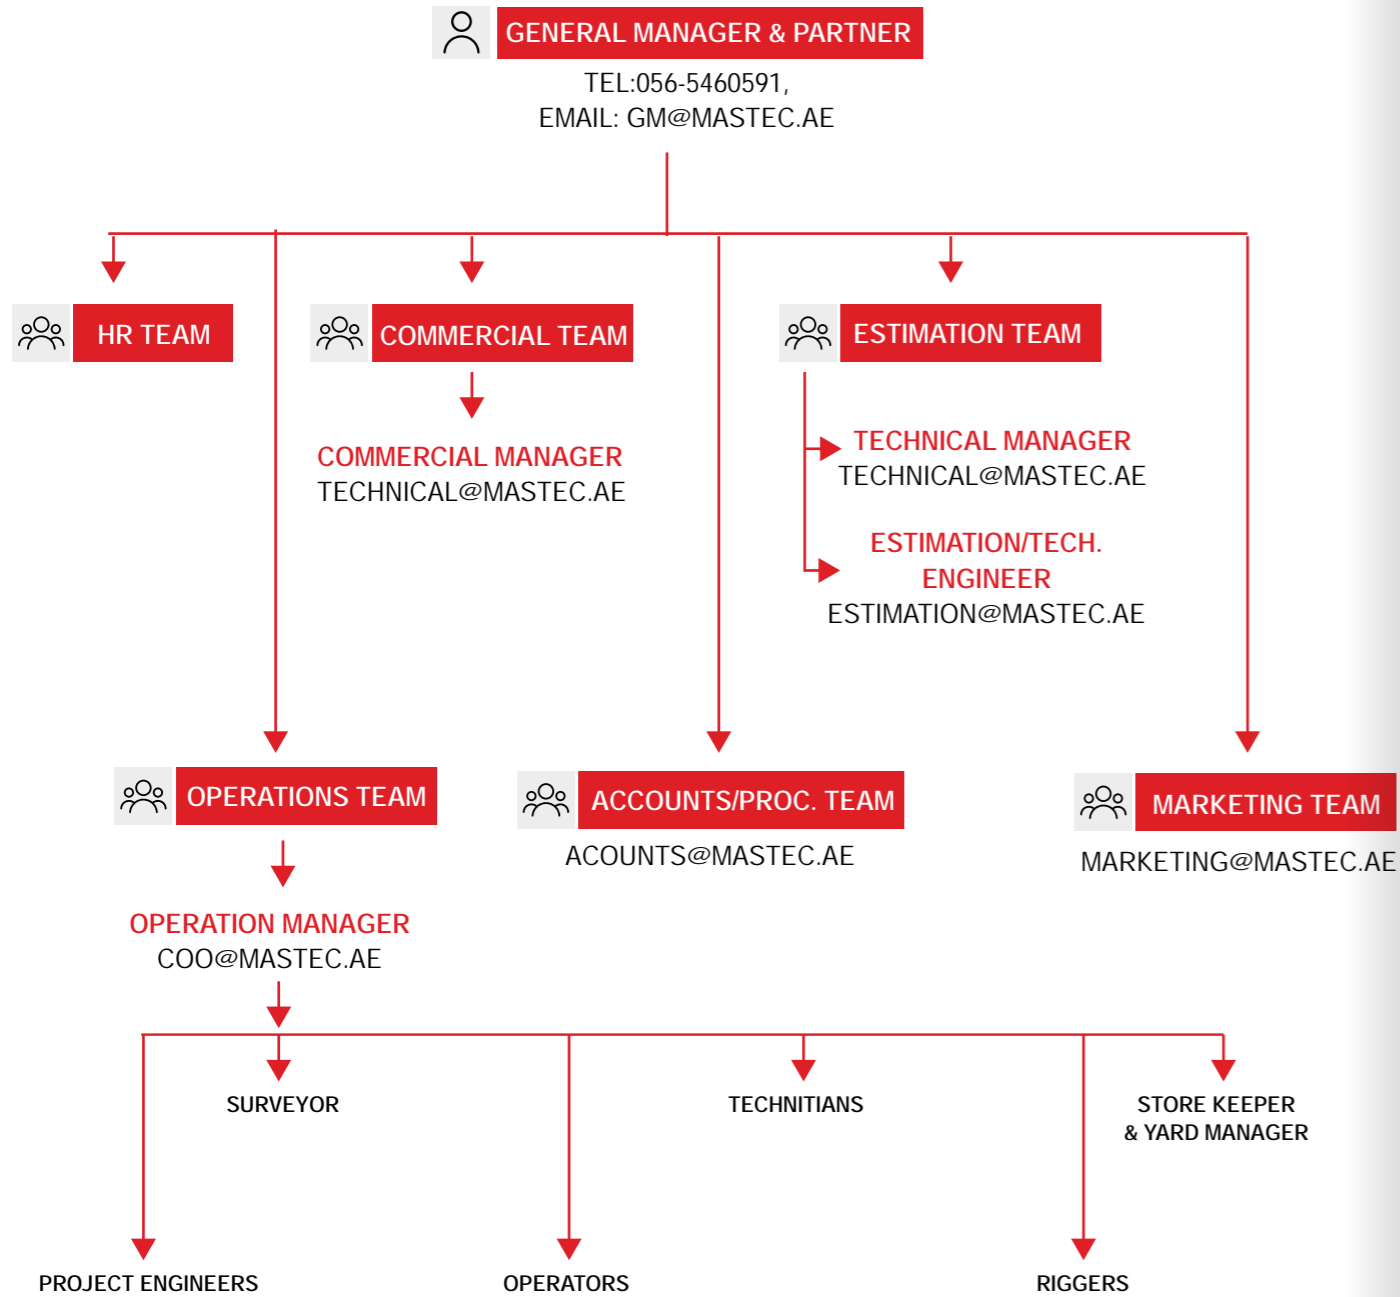

05 CUSTOMER-CENTRIC APPROACH

We work closely with our clients to understand their unique requirements and provide customized solutions that meet project objectives

ORGANIZATIONAL CHART

OUR PROJECTS

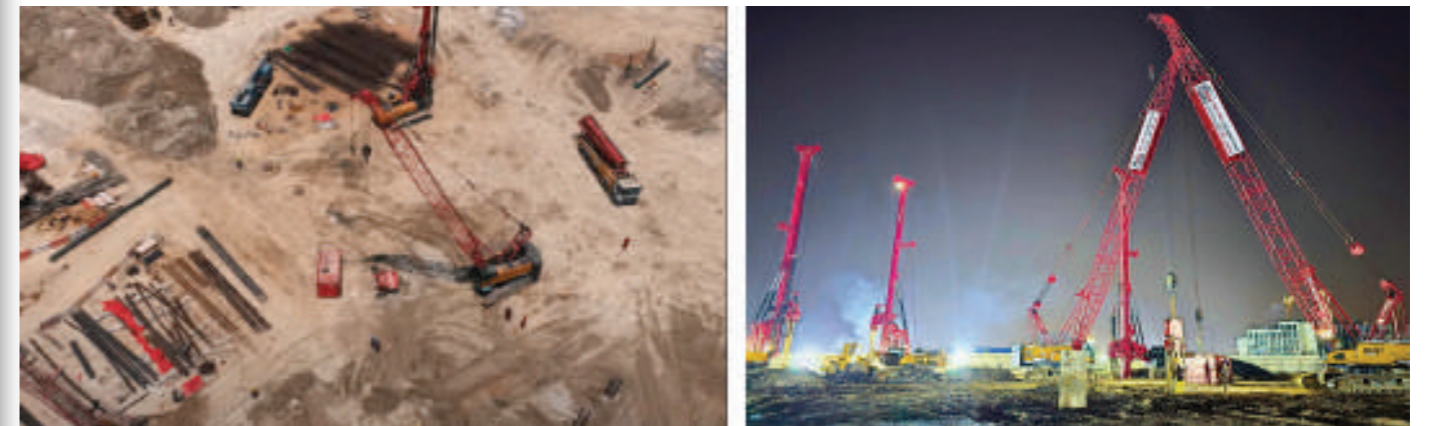

AL RAHA LOFTS 2 & 1 (RESIDENTIAL BUILDING)

Location : Al Raha Beach, ABU DHABI, UAE
 Contractor : A&M international general contracting L.L.c.
 Consultant : Pioneer engineering consultancy L.L.c.
 Contract value : 210,000,000 Dhs
 Scope of work : Construction, Mep, Fitout & Interiors
 Estidama rating : Pearl I

Henge Residential Building

Client: Nord Real Estate LLC
 Main Contractor: Silver Falcon Contracting LLC
 Enabling Contractor: Mas Tec Foundations LLC
 Location: Al Saadiyat Island, Abu Dhabi

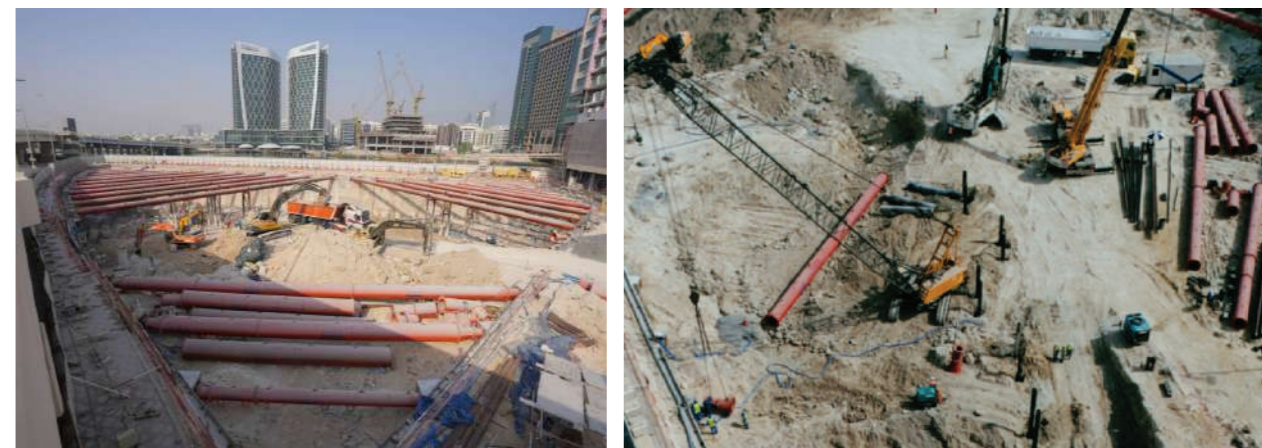

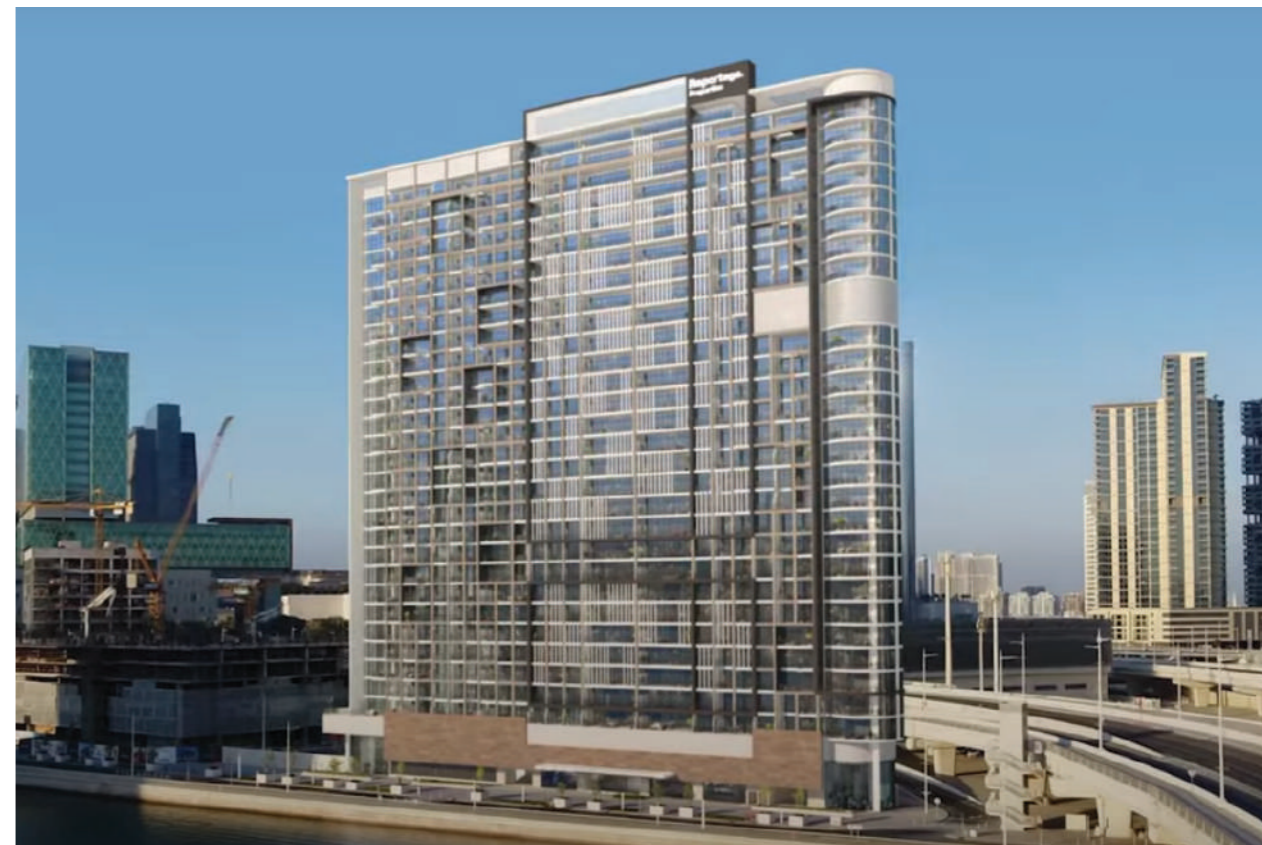

Royal Residential Park

Client: Reportage Properties
 Main Contractor: A&M International General Contracting
 Enabling Contractor: Mas Tec Foundations LLC
 Location: Masder City, Abu Dhabi

OASIS II

Client: Reportage Prime Properties
 Main Contractor: A&M INTERNATIONAL GENERAL CONTRACTING
 Enabling Contractor: Mas Tec Foundations LLC
 Location: MASDAR CITY, Abu Dhabi

Al Maryah Vista 2

Client: Reportage Properties
 Main Contractor: A&M International General Contracting
 Enabling Contractor: Mas Tec Foundations LLC
 Location: Al Maryah Island, Abu Dhabi

OASIS II

Client: ADCE/ Heirs of Sultan Rashed Jaber Al Khaili
 Main Contractor: A&M INTERNATIONAL GENERAL CONTRACTING
 Enabling Contractor: Mas Tec Foundations LLC
 Location: AlFalah St, Abu Dhabi

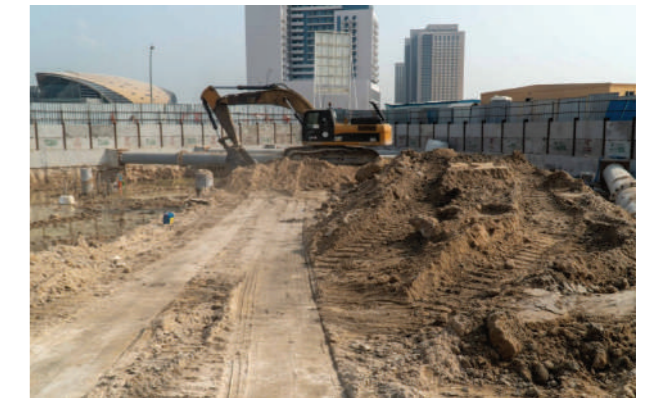

R. Hills

Client: Reportage Properties
 Enabling Contractor: Mas Tec Foundations LLC
 Location: Abu Dhabi

THE GATE TOWER

Client: Reportage Properties
 Main Contractor: A&M INTERNATIONAL
 GENERAL CONTRACTING
 Enabling Contractor: Mas Tec Foundations LLC
 Location: Masdar City, Abu Dhabi

ALEXIS TOWER

Client: Reportage Prime Properties LLC
 Enabling Contractor: Mas Tec Foundations LLC
 Location: Downtown Jebel Ali, Dubai

TRISTAR OFFICE BUILDING

LOCATION : Masdar City, Abu Dhabi, UAE
 CLIENT : Private
 CONTRACT VALUE : 22,334,203 DHS
 CONSULTANT : Al Ain Consulting Engineers
 Developer : Masdar City
 project : Construction and Completion of Tristar Office Building

PLAZA || BUILDING

LOCATION : Masdar City
 CLIENT : Private
 Amount : 105,000,000 DHS
 Consultant : Al Reem Engineering Consultancy
 Construction of Residential Building (2B+G+5+RF)

PLAZA 1 BUILDING

Location : Masdar City, Abu Dhabi, UAE
 Client : Private
 Amount : 55,000,000 Dhs
 Consultant : Al Reem Engineering Consultancy
 Construction Of Residential Building Plaza B15 (G+6+roof)

PRIVATE VILLA

Location : Al Nareal Island, Abu Dhabi, UAE
 Client : Private
 Contractor : Pro Civil General Contracting
 Consultant : Target Engineering Consultancy
 Construction Of Residential Building Plaza B15 (G+6+roof)

OFFICE BUILDING FOR MINISTRY OF INTERIOR (EREC)

Location : Sector W56
 Client : Private
 Main Contractor : A&m International General Contracting
 Amount : 68,000,000.00 Aed
 Consultant : M N Florence Architects L.L.C - Middle E Ast Branch.
 Project Manegment : Projacs International Project Mangment
 Erec Building No.44 – Office Building For Ministry Of Interior

DIVA RESIDENTIAL BULDING C29

Location : Yas South Island, Abu Dhabi
 Client : Private
 Contractor : A&M International General Contracing
 Zone : Ys2, Yasiland, Abu Dhabi
 Amount : 88,500,000,00 Dhs
 Consultant : Pioneer Engineering Consultantancy L.L.C

PRIVATE VILLA

Location : El Meshref , Abu Dhabi
 Client : Private
 Design Consultant : Handover Engineering
 Supervision Consultant : Abdul Rahim Architectural
 Basin No. : E38-01

PRIVATE PALACE

Location : Nad Al Shiba Second, Dubai, UAE
 Client : Private
 Contractor : A&M International General Contracting L.I.c.
 Consultant : Pioneer Engineering Consultancy L.I.c.
 Contract Value : 25,000,000 Dhs
 Scope Of Work : Construction, Mep, Fitout & Interiors
 Estidama Rating : None

PRIVATE PALACE

Location : Al Tawilla, Abu Dhabi Aue
 Client : Private
 Zone : Abu Dhabi
 Consultant : Lamaison Engineering Consultancy
 Scope Of Work : Construction, Fit_ Out, Interior

PRIVATE PALACE

Location : Nad al shiba second, Dubai, UAE
 Client : Private
 Contractor : A&M International General Contracting L.L.C.
 Consultant : Golden square Engineering Consultants L.L.C.
 Contract Value : 35,000,000 Dhs
 Scope Of Work : Construction, Mep, Fitout & Interiors
 Estidama Rating : None

OUR CLIENTS

02

MARKETING DEPARTMENT

Mas Tec has sales offices located in Head office(Alreem Island) , Abu-dhabi . All quotations received at each sales office is processed and submitted to the client with optimal weight and correct pricing. Each quote is submitted with a detailed proposal offer and proposal drawings. Our sales department extends full-fledged support to the customers from the quote stage until the project handover

CHAPTER 2 .2

ESTIMATING & ENGINEERING DEPARTMENT

Mas Tec has competent and highly skilled estimating, design & detailing team. All quotes received are thoroughly studied and proposal offers are submitted fully complying to the client specifications. Once the job is signed approval package comprising of design calculation and approval drawings are prepared designed as per the design codes, building codes and customer specifications that are applicable. 3D analysis is carried out for complex projects using Staad Pro. After the job is approved, the job is detailed as per the phase plan. Erection drawings with bill of materials are submitted to the client after detailing is completed.

All estimates, design & detailing are prepared by a competent engineer, checked by senior engineer and approved by the head of department. Checklist is prepared for all jobs and kept in the job file for record. Design Warranty for 20 years is generally provided to the customers

CHAPTER 2 .3

DESIGN & DETAILING SOFTWARES

Design is performed using licensed Software like PLAXIS 2D and WALLAP and detailing is performed using Auto Cad

QUALITY CONTROL DEPARTMENT

The entire project is supervised by our quality control department at all stages i.e. from the raw material to the finished product namely:

- The compliance of fabrication is checked as per the project specification, MBMA & AWS.
- Mill test certificate for all the materials and fasteners are checked by the QC department.
- All materials fabricated are cross checked with the fabrication shop sketches.
- Painting thickness is verified after painting is done.
- Material packing and loading in the trailer / container is supervised. Generally QC inspection is carried out as per our standard ITP (Inspection & testing plan) which follows American Welding Society (AWS). Quality control report is maintained for each project which can be submitted upon client request. Quality control personnel include experienced certified Welding & Painting Inspectors and skilled in Process Inspectors

CHAPTER 2 .5 PURCHASE DEPARTMENT

All the materials are purchased from reputed mills and each material is purchased with mill test certificate. All purchase orders are checked by quality control department for the specifications. Inventory planning is done for each job immediately after the job entry.

CHAPTER 2 .6 FINANCE DEPARTMENT

Finance department generally coordinates with the client for the payment & guarantees

- . All the commercial terms and conditions are verified and signed by Finance department
- . Finance department has well qualified team to handle cash flow, cost control, account payables and receivables , budget planning etc.

CHAPTER 2 .7 HUMAN RESOURCE DEPARTMENT

Expert team in human resource departments takes care of the recruitment, personnel policies and coordination with all department. Co-ordination for ISO audits are carried out by human resource department team.

LOGISTICS DEPARTMENT

Packing of equipments are done properly and loaded on the trailers or containers by the logistics department. Proper care is taken to ensure that mechanical damage of materials are avoided.

CHAPTER 2 .9 OPERATIONS

Mas Tec has a dedicated team in the operations department. The team supervises the operations work done by teams appointed by us for projects that are awarded with operations scope of work. For complex projects operations department submits to the customer the method statement for operations.
